

"Smart" Batteries by Sandown Wireless

Next-generation two-way radio batteries designed to keep you *protected, informed and powered longer.*

Motorola Types

PN	Battery Info	Warranty	Radio Reference
CM4486LIPIC	3400 mAh / LiPo / IP68	24 months	APX6000, APX7000, APX8000
CX4487LIPIC	4900 mAh / LiPo	24 months	
C4409LIIC	2500 mAh / Li-Ion / IP67 / clip	12 months	APX900, APX1000, APX3000, APX4000, XPR3300e, XPR3500e, XPR7350e, XPR7380e, XPR7550e, XPR7580e
C4406LIIC	2000 mAh / Li-Ion / IP68 / clip	12 months	XPR3300, XPR3500, XPR7350, XPR7380, XPR7550, XPR7580
C4077LIXT	2500 mAh / Li-Ion / clip	12 months	XPR6100, XPR6300, XPR6350, XPR6380, XPR6500, XPR6550, XPR6580
CLE4069LIIS	2200 mAh / Li-Ion / IP64 / IS / clip	12 months	
C6034LIIC	4400 mAh / Li-Ion / clip	12 months	XTS3000, XTS3500, XTS5000
CX9858LIPIC	4100 mAh / LiPo / clip	24 months	
C9858MHIC	2500 mAh / NiMH / clip	12 months	XTS1500, XTS2500, MT1500, PR1500

C4486LIIC-48 - 4800 mAh / Li-Ion-----12 months---APX6000, 7000, 8000 Series

Information Displayed When Charging CM4486LIPIC

BATTERY RECOGNITION

Shows part number, chemistry, serial number (not shown), and IMPRES™ compatibility.

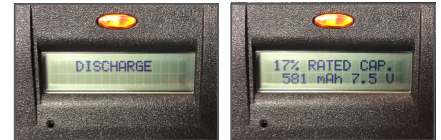

RAPID CHARGING

Shows status (RAPID CHARGE) and current state of charge.

CONDITIONING

Shows status (DISCHARGE) and current state of discharge.

* Shown for IMPRES™ 1 charger (WPLN4127AR). With IMPRES™ 2 charger (NNTN8844) the state of charge and discharge are not displayed.

P/N: CM4486LIPIC The APX Leader, 3400 mAh, 2 Year Warr.

- For Motorola APX6000, APX7000, APX8000. Replaces Motorola PMNN4486.
- Compatible with IMPRES™ 1 and IMPRES™ 2 chargers.
- Also compatible with Endura ECxV3 models – desktop and in-vehicle. (When used with Endura chargers, remember to condition IMPRES™ batteries in an IMPRES™ charger every 30 days to maintain functionality of the battery level display shown on an APX radio.)
- Provides same features as IMPRES™ 1 battery models.

Motorola™ and IMPRES™ are trademarks or registered trademarks of Motorola Trademark Holdings.
